EFFECTIVE ETHICS MANAGEMENT

The world of ethics - applications, risk, committees, renewals, - is challenging and laborious for researchers and administrators. RME Ethics helps you manage the entire ethics process simply and effectively.

Applicants can:

- Provide all the information required by the Government through one interface
- Interact with an intelligent system which ensures accurate assessment of risk level of the project
- Interact with co-researchers, reviewers and assessors to ensure approval as quickly and smoothly as possible
- Receive timely reminders for renewal requirements
- Specify techniques and species, facilities and sites
- Define all the roles and responsibilities within a research project

The screenshot displays the ResearchMaster Enterprise web application. The main header shows the logo and version '5.3.0.0'. A navigation menu includes 'Home', 'Ethics', and 'Help'. The user is identified as 'Mr Ari Abbott'. The main content area is titled 'Human trial for interferon gamma for the treatment of the flu.' and shows a 'Prior Ethics Approval' section with a 'Continue' button. A sidebar on the left lists various application components like 'Prior Approval', 'Investigators', and 'Funding of Research'. A central pop-up window titled 'Ethics Application Form' shows a checklist of items with green checkmarks, including 'Prior Approval', 'Investigators', 'Funding of Research', 'Basic project details', 'Project Funding - External', 'Project Funding - Internal', 'Data Ownership', 'Management of Data', 'University Liability', 'Scope of Research', 'General', and 'Progress'.

ENGAGE DECISION MAKERS

Assessors and committee members have on-line access to the protocols and can identify issues, request amendments or provide comment for consideration by approving authorities.

Ethics managers can:

- Create application eForms to fulfil all regulatory requirements and other institutional needs.
- Define the approvals process specific to different risk levels
- Communicate proactively with applicants to ensure accuracy and timeliness
- Engage with ethics reviewers and committees
- Put in place efficient control of the application process

The screenshot shows the 'Manage E-Mail Templates' section of the ResearchMaster Enterprise application. The header includes the logo and version '5.3.0.0', and the user is identified as 'Ms Frankie Flinders'. A navigation menu includes 'Home', 'Ethics', 'Personnel', 'Projects', 'Research outputs', 'System administration', and 'Help'. The main content area is titled 'Manage E-Mail Templates' and shows a table of templates for 'Online Human Ethics'. The table has columns for 'Name', 'Description', and 'Active?'. The templates listed are: 'Application for Supervisor Review', 'Application from Ethics Officer to HREC for review', 'Application for Ethics Officer Review', 'Notification of Approval to Applicant', 'Notification of Rejection to Applicant', 'Supervisor returns application to student applicant', and 'Ethics Officer returns application to applicant'. An 'Edit' pop-up window is shown, allowing users to modify the 'Application for Supervisor Review' template. The 'Edit' window includes fields for 'Name', 'Description', 'From', 'Recipients', 'Send Option', 'Recipient Type', 'Recipient', and 'Subject Body'. The 'Subject Body' field contains a template for an ethics clearance application, including fields for 'Responsible Supervisor Name', 'Application Title', 'Application Version', 'Ethics Application Title', 'Primary Investigator ID', 'Primary Investigator Name', 'Responsible Supervisor Name', 'Review Due Date', 'Review Group Name', and 'Review Outcome'.
